Seminar Completed:

Name: Cyber Security

Year: Third year

Project Completed:

Name: Farm-Help Management.

Year: Third-year Seminar Project

Description: In this Project Presentation, "Farm-Help Management " provides the farmers to upload their products and helps its users or buyers to get the details of the agricultural products. The main objective of this project is building an application which will help the farmers to sell their products by uploading the details of that product in the application. Farm-Help Management is an online web application where buyers can go through the list of products uploaded by the farmer and can add to their cart or buy the required product directly. Both farmers and buyers need to login separately using their own user id and password. And the buyer can place their items into a cart and can purchase it. This application is developed using Python programming language.
